The Association of American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide **protection** to the public against **fraudulent advertising schemes which operate under the name of Directories,** and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

$100 Reward will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fake directory.

Preface

We present this, the 28th volume of Henderson's Winnipeg City Directory, hoping that it will meet with the approval and appreciation of our patrons and the public.

This book faithfully represents the healthy growth and progress made during the past year, one of the most striking evidences of which is the very large increase in the number of names and addresses contained in the Directory.

The type face has been changed throughout, from eight point to six point, thereby effecting a reduction of 25 per cent., and a saving of several letters per line.

The street directory has been set in three columns, with the names of streets in heavy, and intersecting streets in small black type.

The alphabetical section of the work has been much condensed, abbreviations in occupations being used where possible, thereby enabling us to print so many more names on each page, making the work more compact and easier for convenient reference.

If this edition of the Directory had been set in eight point type as hitherto, this volume would have shown an increase of 400 pages over last year, instead of a decrease of 140 pages. Furthermore, the book is much more serviceably bound.

There has been a great deal of comment on the discrepancy between the Directory estimate of last year and the City Census taken by us in June last. Many were disappointed at the figures not equalling their expectations. On the City Census we worked under exact instructions, being allowed no liberty or latitude whatever, the work all being subject to severe revision. Those working in the City and living in the Suburbs, or temporarily absent, were not to be included. Had we been allowed to use our own judgment in doubtful cases, the population would most certainly have been 94,636 for the City of Winnipeg, or 92,895 for ground covered by the City Directory, including the suburbs of Norwood, Louise-Bridge, St. Boniface and St. James.

The 1906 edition contains 41,682 names of individuals exclusive of 2,382 names of firms, companies and corporations. This shows an increase of 9,215 individual names over last year.

By using the multiple 2.875 which is very low (some cities using as high as 3.5) we estimate the population of the City of Winnipeg proper (within the municipal limits) to be 109,196 and that of the suburbs 10,641, making a total estimated population, on the basis of the census taken last June, of 119,837.

We are, faithfully,

HENDERSON DIRECTORIES Limited.

Chairman, His Honor D. M. Walker, County Court Judge. T. Mayne Daly, Police Magistrate.

His Worship Thomas Sharpe, Aldermen Cockburn and Sandison. A. A. Aird, Secretary of the Board.

POLICE DEPARTMENT

Police Station, corner James and King Streets.

Chief, John C. McRae; Inspector, Wm. Munro; Sergeants, W. J. Leach, Ed. Blair and A. G. Robertson; Patrol Sergeants, C. H Newton and Alex. Smith; Detectives C. A. Chatterson, Eli Stodgill, Philip Stark, Jacob Seal, Theodore Stefanick and fifty-six Patrolmen.

FIRE DEPARTMENT.

The Winnipeg Fire Alarm System is owned and operated by the City. It comprises 50 miles of overhead wiring, 126 street boxes, and E. M. gongs in each of the Fire Stations, Waterworks, Chief's Residence, etc. There are seven box circuits and two gong circuits. The boxes are of the Gamewell type. The system is arranged for either automatic or manual operation. Storage batteries are used for current supply. Operators on duty day and night. Alarms can be given by telephone by calling "100."

The fire department is an uniformed one and the number of men composing the brigade and the equipment of the department are as follows:

1 Chief.
1 Assistant Chief.
8 Captains.
8 Lieutenants.
5 Engineers.
5 Assistant Engineers.

35,000 feet Fire Hose.
775 Fire Hydrants.
123 Miles of Water Mains.

WINNIPEG NEW WATERWORKS.

The pumping machinery consists of four pumps, each capable of pumping five million gallons in twenty-fou hours. Two pumps pump from wells to softening plant, the other two from softening plant reservoir to to the city main. The engines are of the most modern type.

The boilers for supplying steam to the pumping and electric lighting engines are seven in number. with superheaters and mechanical stokers.

In connection with the system there is a 6,000,000 gallon reservoir.

The total of water main. December, 1905, was 95 miles.

For better fire protection, a High Pressure Special Fire Service Waterworks is under construction, having a capacity of 12,000,000 gals per day against 300 lbs pressure. THE UNIVERSITY OF MANITOBA.

Broadway, West of Kennedy Street.

The University of Manitoba, established by the Act of the Local Legislature in 1877, has the sole power of conferring Degrees in Arts, Law, and Medicine in the Province of Manitoba.

Degrees in Divinity may be granted by the various Colleges affiliated with the University, provided that all candidates for the Degree of Bachelor of Divinity, not graduates of this or any other University, shall have passed a satisfactory examination on the subjects of the First and Second Years in Arts as prescribed by the University, Greek being compulsory; and such Graduates in Divinity have in the University the same rights and privileges as other Graduates.

The Government of the University is vested in the Chancellor, appointed by the Lieutenant-Governor-in-Council, and a Council of fifty-five members, composed of representatives from each of the affiliated Colleges, the members of Convocation, the College of Physicians and Surgeons of Manitoba, and the Provincial Government .

The general superintendence of all examinations is entrusted to a Board called the Board of Studies, composed of members of the Council elected annually, as follows: two by each of the Affiliated Colleges in Arts, two by the Graduate Representatives, one by the College of Physicians and Surgeons of Manitoba, one by Manitoba Medical College, and one by the Council.

It is the duty of the Board also, to report to the Council, when they see fit, on the studies of the University, and other matters connected therewith, and generally to discharge all duties that may be assigned them by the Council.

THE WINNIPEG GRAIN EXCHANGE.

The Winnipeg Grain Exchange is by far the largest and most important one in the Dominion of Canada to-day, and steps are being taken by its members toward the immediate construction of a more commodious exchange

building in which to more satisfactorily handle the ever-increasing volume of business created by the enormous crops of Manitoba and the Northwest Territories.

Although the Exchange's future trading market was but inaugurated in February, 1904, its quotations are regularly supplied by the telegraph companies to the leading grain and produce associations of Canada and the United States, upon whose operations they exert a most powerful influence.

Maps

Are silent monitors of the progress, power and influence of empire, state and municipality.

The Stovel Series of Modern Vest-Pocket Maps of the Canadian Provinces are designed and compiled from the newest government surveys and statistics and other official sources.

They are clear, legible and comprehensive in every detail, being engraved by the improved process of cero-type engraving. We are the only engravers in Canada operating this modern process, and they represent a new departure in the industrial advancement of Canada.

All newsdealers and stationers sell them. Price 15c. each.

Ready-to-Wear Garments for Women

OUR Ladies' Ready-to-Wear Garments represent at once the best values and the latest styles obtainable. They are manufactured in our own factories from goods bought by us for cash direct from the mills. By going to the makers and doing the manufacturing ourselves we eliminate all middlemen's profits, and every saving we make is reflected in our prices, for we do business on the principle of reasonable profits and quick turnovers.

Our permanent purchasing offices in London and Paris serve a double purpose. By means of them we are kept posted on the condition of the markets, so that we can always buy to the best possible advantage. Through them we are also advised of all the newest styles as soon as they make their appearance. These are adapted to the tastes of the Canadian woman, and are reproduced by us, so that the women in Canada are wearing the same styles as are worn in the European centres of fashion at the same time.

So much for price and Style. A word about the workmanship—made in our own factories by our own workpeople we can guarantee it with confidence. We know it is equal to custom made clothing that costs double the money, equal in fit, finish and appearance.

And every dollar's worth we sell is backed by our guarantee—Money refunded if not satisfied.

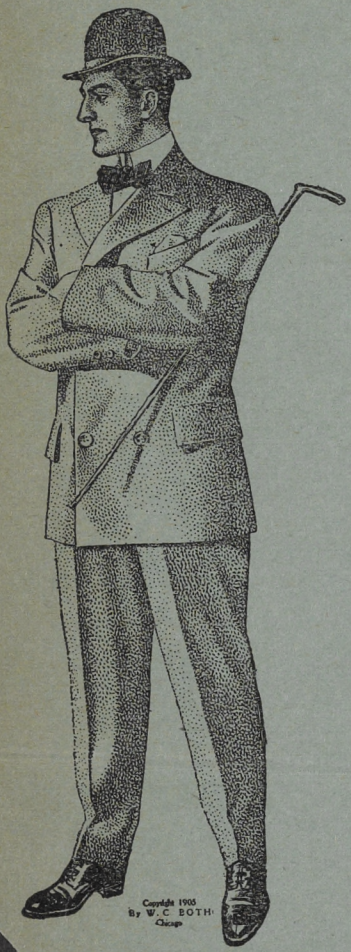
Save Money on Your Clothing

WE make A SPECIALTY of MEN'S CLOTHING; we make it in our own workrooms. It is designed by experts, cut by experts, tailored by experts. The material is bought direct by us from the manufacturers, and every garment is backed by our guarantee—Money refunded if not satisfied.



Every suit bought from us represents a substantial saving for the simple reason that we save you the middlemen's profits.

Every suit represents the correct style and the correct fit.

The suit illustrated is double-breasted, but they are made in single-breasted also. The material is Hewson's celebrated all-wool 22-oz. heather-mixed tweed in Scotch effects in brown and grey mixtures and brown with red mixtures. The tailoring is perfect; the coats have broad and well-shaped shoulders. Sizes 36 to 44.

Price $11.50

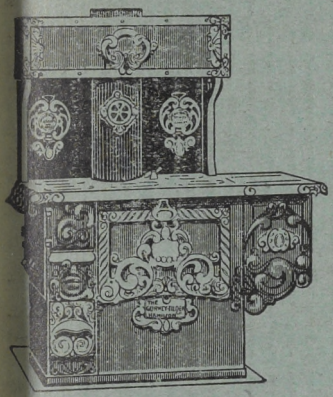
A SUMMARY OF THE 'Supreme Souvenir' Range



It's the acme of all round excellence. The outcome of twenty-five years' steady progress in the making of "Souvenir" ranges.

"The Supreme Souvenir" is a polished steel range.

—Is built for coal or wood.

—Is made of the very best material.

—Is sold in three sizes 18, 20, and 22 inch ovens.

—Is supplied with the "Aerated" Oven which admits only heated FRESH air to the oven.

—Can be furnished with high shelf, high closet or reservoir as desired.

—Has a fire box lined with Duplex Grates, exceptionally strong and simple, which can be easily taken out through the side door.
